STREETS MADE STRAIGHT

Changes Proposed in Course of Certain Thoroughfares.

OTHER SUGGESTIONS MADE

Hotel Proprietors Failing to Erect Fire Escapes Will Be Denied a License in November—Must Furnish Certificate—Death Record For 24 Hours—Building Permits.

Some important changes are contemplated in street extension plans, the details of which are now before the board of Commissioners. Among the suggested transfer of Fourteenth street line at all points where there is a deflection from a direct course, thus making it as a straight thoroughfare through the District line. This will enable the Commissioners to continue Fifteenth street through, also in a straight course. Interested citizens, among whom is Mr. Blair Lee, have been invited to confer upon the proposed changes with the District authorities.

The Commissioners yesterday agreed upon certain recommendations to the highway commission respecting street extensions, which, if adopted, will cause a number of changes in the plans.

The suggestion is to continue Sixth street through Le Pot Park for a distance of half a square, to New Jersey avenue, and also for the extension of Vermont to the Whitney avenue gate at the Soldiers' Home.

Barney street is to be extended beyond Fifteenth street west, and in Kalorama subdivision Twenty-third street will be extended through to the south as far as Sheridan circle and north to Belmont road. While there is present immunity under the law for injured persons from the provision requiring the erection of fire escapes, there will not be a very lengthy period of exemption. In this particular, as noted in the Times of Tuesday, every owner of a building occupied for hotel purposes will be obliged to furnish the District assessor with a certificate from the building inspector that the required escapes are erected before he can obtain a license to continue in business. This obligation is in the law, and the law is the law.

Referring to this point yesterday, President Ross said that the law is very plain, and that unquestionably license would have to be refused in all cases where applications are accompanied by the building inspector's certificate.

Record of deaths reported at the health office for the twenty-four hours ending at 4 o'clock yesterday:

White—Edith White, aged eighty-one years; Barbara Olanine, aged seventy-one years; Joseph Charville, aged sixty-two years; John H. Smith, aged fifty-four years; Charles Albert, aged one year; Charles Stone, aged nine months; John M. Stevens, aged seven months; Louis Schaeffer, aged six months; George Miller, aged three months; Marie V. Cole, aged two months; Helena Lutz, aged two months; Ann Stokes, aged one month; Howard Taylor, aged one month.

Colored—Frances A. Bennett, aged fifty-one years; George Mott, aged fifty years; John Brown, aged forty years; Wheeler, aged forty; William T. Taylor, aged twenty-nine; Edward C. Dowden, aged twenty-five; Alice V. Bond, aged one and one-half years; Alice E. Scott, aged four months; Clara Bell, aged three months; Edith Fairfax, aged two months; Ernie Will, aged two months.

Fourteen of the foregoing list were infants, and six were persons above fifty years of age—an aggregate of twenty of a total of twenty-nine.

John C. Howard was on yesterday appointed inspector, weigher and measurer of coal for the District, the appointment to take effect upon his qualifying for duty. The appointee is prominently identified with the District military, having been at the head of a company of High School cadets. He is known to the Commissioners highly recommended.

Building permits were issued yesterday as follows: Jordan & Richardson, two dwellings, Anacostia, \$2,000; D. R. Grew, dwelling, No. 640 F Street northeast, \$2,900; George P. Merrill, three-story building, lot 68, Stoughton street, \$5,000.

CAME THROUGH THE SKYLIGHT.

Thief Entered Mrs. Simons' House and Robbed Her of Money.

Mrs. E. H. Simons, of No. 1528 Corcoran street, yesterday reported to the police the theft of \$25 in money at her home on Tuesday evening.

The family was at dinner when the laundry woman came. A member of the family went to Mrs. Simons' room to get money to pay her. The pocketbook could not be found on the unfinished brick building next door to Mrs. Simons' home while they were at dinner, and upon investigation it was found that the thief had entered through the skylight.

The family believed that the thief climbed up through the unfinished house and let himself down through the skylight to get at the money.

Appointment of Trustee Asked For.

A bill of complaint was filed in equity yesterday by Sarah F. Bakwin, against Elizabeth B. Luttrell, Mary E. Luttrell, and Sadie W. Luttrell, for the appointment of a new trustee instead of Thomas J. Luttrell, deceased. The complainant's petition sets forth that Mr. Luttrell, in connection with James E. Dexter, was appointed trustee of certain premises delivered by deed of trust, the payment on which had been made. Trustee Dexter has refused the sale and it is only necessary that his co-trustee do the same.

Property Willed to Children.

The will of the late William B. Crumpton, which was filed for probate yesterday, gives to James Crumpton, a son, a life interest in lot 8, square 435, after a part of the proceeds arising from the rental of the property is devoted to the payment of indebtedness to Clara L. Augustus. The remainder in fee is given to Allen Crumpton, brother of Mr. Crumpton, and Dorris, a sister. The will is dated April 10, 1895.

Mrs. Sprague's Furniture at Auction.

The furniture of Mrs. Katherine Chase Sprague, daughter of the late Chief Justice Chase, is about to be sold at auction. When the property was sold, it was ordered to be sold Mrs. Sprague asked that it be disposed of at private sale, but Chief Justice Bingham has dismissed the petition. It will now be publicly sold.

Fell and Broke Her Wrist.

Eldred Mowatt, the little daughter of John F. Mowatt, an electrician, at No. 824 Thirtieth street northeast, fell from a tree yesterday and broke her wrist. She was taken to the Emergency Hospital where the fracture was reduced.

THREE MILES IN A FIGHT

Bolivia, Ecuador and Peru Reported as Intending to Go to War.

None of Them Has a Navy and Not More Than a Brigade For An Army.

South American diplomats in Washington are much interested in the press reports that Bolivia has presented an ultimatum to Peru, which the latter had rejected and that Bolivia and Ecuador have formed an alliance with the prospect of making war on Peru.

The three countries involved are without ministers here, as recent revolutions have broken up the legations. The representatives of each country are now in the city, but are about equally matched so far as military prowess is concerned.

Peru's former strength has disappeared since her war with Chile. The Chileans took all the Peruvian warships, and it is believed that one transport is all that remains of the Peruvian navy. The army is said to number 4,000 men. The resources of the country were further crippled recently by a revolution, in which the government was overthrown, the capital sacked and hundreds of people killed.

Since then there has been a "junta" running the government until an election could be held. A few days ago the "junta" sought to measure outside countries of its strength by sending cablegrams to the several nations at Washington, asking that the status quo would be maintained and all government obligations respected until the election.

Bolivia has no navy, and her army is said to be about the same as that of Peru. She is entirely landlocked since the war with Chile, which took possession of the provinces which had formed Bolivia's coast line. Of late Bolivia has tried to get back her coast front, and a treaty was effected for this purpose, but it has not been ratified by the Chilean congress, and is not likely to be.

Ecuador is said to be in a position to fight, as she has just emerged from a revolution and out her army is in arms. But her navy is insignificant; her only good warship having been sold to Japan some months ago. It looks, therefore, to those conversant with the situation that the three countries would not engage in a sea, and there are great stretches of absolute and mountainous country, and the only child is too weary interested in the trouble. The last war appears to have established her firmly as mistress of the west coast of South America. She has a powerful fleet, ranking with some of the European powers, and none of the neighboring republics seem willing to oppose her further.

OFFICE FOR THE PRESIDENTS.

Col. Wilson's Suggestion Regarding an Annex to the White House.

Col. John M. Wilson, of the Engineer Corps, in charge of the White House, and other public buildings and parks about Washington, in his annual report, recommends that an appropriation of \$250,000 be made for the construction of a new building to house the President's office.

The building is to be a two-story structure, to be built on the site of the old Treasury building, and to be connected with the White House by a new bridge.

DEFENDING THE COASTS.

General Plan of the Naval Manoeuvres Next Month.

While the details have not yet been arranged, the general plan of the extensive maneuvers of the North Atlantic Squadron, next month, will be based upon a theoretical defense of that portion of the coast lying between Cape Cod and the capes of the Chesapeake.

The fleet vessels will be sent out to sea as scouts and they will make a rendezvous to report the supposed appearance of a hostile fleet off certain points on the coast within these limits, when attempts will be made to repulse the threatened attack.

It is likely that the greatest demonstrations will be off the eastern entrance to Long Island Sound, which has long been regarded as the most probable pathway to New York harbor that would be followed by an enemy, and also at the entrance of the Chesapeake Bay.

Admiral Bacon, who will direct the operations for the defense, is now engaged in collecting the positions of the ships, and tactical qualities of the ten ships that will compose his squadron, preparatory to reducing the details of his plans to form.

NO HEAD FOR BUSINESS.

Librarian Spofford's Mind Always Obedient With Literary Thoughts.

At the Treasury Department it is thought that there is no suspicion that anything is wrong in the accounts of Librarian Spofford, who is a discharging officer of the Congressional Library.

Under the Treasury reorganization made by the Dockery Commission, Treasury auditors were instructed from making an advance of money to Librarian Spofford until the previous quarter's accounts were audited. Auditor Holcomb, who has held up Librarian Spofford's accounts, is simply carrying out the law.

The old system Mr. Spofford was nearly always delinquent in sending in his accounts for settlement, but when sent in they have been found to be correct.

In all business matters he is said to be a careful, but not a very enterprising man. He has been occupied by literary thoughts. Once his annual estimate was left out of the "Book of Estimates" because he forgot or failed to send them to the Secretary of the Treasury in time.

Assault With Intent to Kill.

Henry Sissell, a laborer, employed in the power house of the Washington and Georgetown Railroad Company, was charged in the police court yesterday with disorderly conduct and with assault with intent to kill, Policeman Coffin, of the Fourth precinct, being the complainant in both cases. Sissell went to his home Wednesday night wildly drunk, and when Policeman Coffin was called in to be greeted with a pistol shot, fired point blank at his head by Sissell. The shot was fired from a .38 Smith & Wesson revolver. Judge Miller fined him \$10 for disorderly conduct and held him to await the action of the grand jury in \$1,000 bonds for the assault. He was committed.

Cruelty to Animals.

William Myers, a contractor, was arrested yesterday for cruelty to animals and held \$15 collateral at police station No. 6.

Humane Agent Replinger noticed a team belonging to Ryan flinching as they drew a big dirt wagon at Sixth and D northwest. Upon examination he found both horses had very sore shoulders and in no fit condition for service. He caused the arrest. Mr. Ryan explained that he knew the horses had sore shoulders and he had tried hard without success to cure them.

ENGINEERS RECOMMENDED.

Two Washingtonians Among Those Recommended for Appointment.

Captain Shoemaker, chief of the revenue cutter service, has recommended the appointment of Hiram A. Seymour, of Florida, as second assistant engineer, and others as acting assistant engineers.

Under act of March 2, 1895, twenty-one officers of the engineer corps have been retired and the vacancies thus created have been filled by promotions from the lower grades which has nearly eliminated the grade of second assistant. Nearly every vessel of the service is short an officer of that grade.

The following named applicants for appointment have passed the required examination but lack the sea service exacted by the department. They are, therefore, recommended for appointment as acting second assistants with the understanding that after six months' sea service they will be commissioned as second assistants.

Daniel W. Blake, of Mississippi; Henry K. Spencer, of Wisconsin; Herman Kotze, of Maine; Henry F. Schoen, of New York; F. G. Lawton, of Virginia; M. W. Thompson, of Pennsylvania; Horace D. Glover, of Washington; D. C. Urban, of Kentucky; and E. W. Albert, of Virginia.

BANISHED AS A TRAITOR.

Nephew of Japan's Ruler Found Guilty of Conspiracy.

The State Department has received from United States Minister Sill, at Chemo, under date of May 16, some additional details of the fall of Pak Yongho, the Emperor's nephew. He was found guilty of conspiring and pronounced a traitor.

The minimum legal penalty for this offense is imprisonment for life but the Emperor, being at liberty to exercise clemency, reduced the term of banishment to ten years. The prisoner was taken to a small island on the coast near Chemo, where he will pass the period of exile.

A very common man implicated in the same conspiracy were hanged the same night.
